Dometic StarLight / SunLight

GAS COOKER WITH SLIMLINE DESIGN

Demand is unbroken for high-performance cookers that fit perfectly in smaller galleys. So, in addition to our popular Dometic StarLight model, we now offer an additional model that features extra-slim design. With the identical width and depth, the new Dometic SunLight is a good 10 cm shorter than the StarLight cooker. We've removed the grill cabinet; both designs are identical in all other aspects. A two-burner hob, oven, satin-surface finish, high-quality pot holders and a cardanic, or gimbaled, suspension mount – you'll find everything you need to enjoy a wonderful cooking experience in a confined space.
