Connecting the ACS R/RP to TFX or TX trim tabs

TFX (Teleflex) previously manufactured hydraulic trim tabs. They differ from other trim tabs in the way that they had only 3 wires instead of the normal four. The following list shows the colours used by TFX and the corresponding ACS markings:

3 => Blue

4 => Yellow

5 => No connection

6 => Red

TX Controls also manufactured hydraulic trim tabs in the 80's and 90's. The following list shows the colours used by TX and the corresponding ACS mark-

3 => Blue 4 => Grey 5 => Red

6 => Black
